Warm Leads

LAUNCHING JUNE 2026

01

The Stakes Are Life-Changing

When a property loses its tax credit status, residents lose their homes. Affordable housing compliance is not a back-office function. It is the difference between a family having a roof and not having one.

02

The Tools Are Embarrassingly Outdated

Property managers submit annual compliance reports via Excel spreadsheets sent to a single email address. Yardi and AppFolio were built for rent collection, not compliance intelligence.

03

The Expertise Is Leaving the Building

Senior compliance professionals retire every day. Their knowledge walks out the door with them. No system captures, scales, or replaces that institutional knowledge. Until now.

FOUNDER
CREDENTIALS

Dizzale Tanner

Founder & CEO · HousingIntellect
Altus Compliance LLC

**Most founders research the
problem.**

Dizzale Tanner lived it.

- ✓ 10+ years in LIHTC, HUD, HOME, Rural Development, Section 202/811
- ✓ Led a 32-state portfolio recovery — hundreds of properties
- ✓ Founded Altus Compliance LLC in 2021
- ✓ Conceived HousingIntellect independently in 2022, documented and timestamped
- ✓ Built and deployed the platform herself — live right now

FROM THE FIELD
TO THE PLATFORM

2021

Founded Altus Compliance LLC

Real clients. Real compliance outcomes.

2022

Conceived HousingIntellect

Documented, timestamped, independent — predates any employment by ~3 years.

2025

Platform Development Begins

React / TypeScript / Supabase / Claude AI — built independently using Cursor.

2026

Deployed & Live

app.housingintellect.io — not a mockup, not a demo. A real product with pilot clients.

AI Compliance Review

Aria reviews tenant files like a senior analyst, catching findings before a monitor does. Proprietary compliance intelligence in every workflow.

Full Agency Report Library

Every HUD, LIHTC, HOME, USDA, and Section 202/811 report — generated in seconds, not hours.

Audit Readiness Scoring

Portfolio-level readiness scores with action plans so clients are never caught off guard at monitoring.

Role-Based Workflows

Admin, Reviewer, Property Staff, Account Manager — each role sees exactly what they need and nothing they do not.

Resident Document Portal

E-signature, document upload, VAWA tracking, EIV management — all in one organized workspace.

Compliance Learning Center

Interactive training, Ask Aria Q&A, quizzes, and a resource library that trains the next generation of compliance staff.

Aria is not a chatbot. Aria is a compliance analyst.

Domain-Trained

10+ years of real LIHTC, HUD, HOME, RD, and Section 202/811 work across 32 states. Aria knows what a monitor looks for because the founder has been in the room.

Proprietary Logic

Decision logic and architecture owned by HousingIntellect. IP predates any employment. GitHub repo January 2025, concept documented 2022.

Explainable Output

Aria tells you why something is a finding — in plain English. Auditors and monitors accept reasoned explanations, not black boxes.

Scalable Expertise

One expert's decade of knowledge serving thousands of units at once. Every file review makes Aria smarter — a moat competitors cannot replicate.

MARKET OPPORTUNITY

A massive, underserved, federally-mandated market.

3M

+

LIHTC units requiring annual compliance certification

50K

+

Affordable housing properties under federal compliance requirements
